ANNEX B – List of Deliverables submitted previously

Only one of the project's deliverables has proven impossible to complete. This was Deliverable 34, involving the establishment of an HE strand to the WCN Europe network as an output of workpackage 5. The reason is that the WCN was a Leonardo funded project that has been unable to secure continuation funding. The WCN is presently in suspended animation pending the resolution of its funding problem. Consequently HERN was not able to contribute as planned.
